Vo-tech

Roder L. Nyberg
Director, Vocational Technical School, BS Ed, Springfield State, MA, Ed Univ. of Missouri

The Chillicothe Area Vocational-Technical serves two counties with major population centers being Chillicothe and Trenton. The courses offered are many and varied.

The courses at the Area Vocational Technical School are based on two important considerations (1) The need for all young people to prepare for a vocation that will provide the economic security necessary for a happy, useful life. (2) The shortage of qualified personnel in many trade and technical occupations. Business and industry are becoming more complicated, specialized and technical in nature. The jobs of tomorrow will require more training and skill. The better paying jobs will go to those who have prepared for them.
